In the ancient lands far beyond the realm of mortals,
there lived a legendary dragon known as 5h3nron.
The mighty 5h3nron held within its scales the secrets of time,
space, and fate itself. Many brave warriors sought the dragon,
hoping to unlock its mysteries. But only the wisest could solve
the dragon's riddles and discover the treasure that lay within...

But heed this warning, traveler: 5h3nron will not reveal its truth easily.
Only those who persist through the flames of knowledge will find the hidden path.
The secret lies at the very end of this journey...
